

LETTER FORMATION PACK - PLAYDOUGH MATS

DESCRIPTION

This resource provides a hands-on approach to letter formation as Ls use playdough to create the shape and build each letter. It enhances fine motor skills, hand strength, and sensory engagement. The resource is designed for diverse Ls, particularly those who benefit from tactile, multisensory experiences. You can use the pack during whole- or small-group instruction with individual Ls working on different mats, or in one-to-one interventions with Ls who need explicit support in perceiving and reproducing letters.

KEY FEATURES

- Short instructions and clean layout. Perfect for very young Ls and Ls with difficulties.
- Visual cue at the top right to support accessibility and understanding.
- One-skill focus. No extra distracting content, and ink-friendly design.

PRINTING DETAILS

Before printing, set your printer to A4 and black-and-white mode. The resource can be laminated and reused with different Ls. Follow the guide to cut the page in half and create two playdough mats.
